

# Mohammad Alnawawreh

Computer Simulation Engineer

+970 568833066 | mnawawra900@gmail.com | Bethlehem, Palestine

[Portfolio](#) | [LinkedIn](#)

## PROFESSIONAL SUMMARY

---

Motivated Computer Simulation Engineer with strong academic background in numerical methods, finite element analysis, and programming. Proficient in Python, Java, and ABAQUS with experience in computational engineering and software development.

## EDUCATION

---

<b>Exchange Student</b>	Université catholique de Louvain (UCLouvain), Belgium   February - May 2025
Scientific report on Space-Time Discontinuous Galerkin Methods for Hyperbolic Equations	
<b>B.Sc. in Computer Simulation Engineering</b>	Bethlehem University, Palestine   August 2021 - July 2025
GPA: 3.39/4.0 (Major: 3.43/4.0)	

## EXPERIENCE

---

<b>Odoo Development Intern</b>	Remote   August 2025 - Present
• Learning Python and Odoo development in 6-month program	
• Developing custom modules and applications	
• Training in backend development and database management	
<b>Writing Scientific Report</b>	Bethlehem University, Palestine   October-December 2024
• Conducted scientific report on numerical methods for heat equations	
• Analyzed different computational approaches for accuracy and stability	
• Developed comprehensive reports on method performance	
<b>FEA &amp; Modeling Intern</b>	Remote   July-August 2024
• Performed finite element analysis using ABAQUS software	
• Analyzed structural behavior in engineering applications	

## TECHNICAL SKILLS

---

**Programming Languages:** Python, Java, C++ (OpenGL), JavaScript

**Engineering Software:** ABAQUS, ETABS

**Development Tools:** Git, VS Code, CodeBlocks, Eclipse, Odoo Framework

**Web Technologies:** HTML5, CSS3, Bootstrap

## LANGUAGES

---

**Arabic:** Native | **English:** Fluent
